

Metropolitan Transit Authority — Annual Report FY2023

Prepared by Office of the Chief Executive

Executive Summary

Accessibility upgrades added elevators at four stations under the systemwide accessibility program. The agency completed track renewal on 14 miles of the Blue Line, reducing slow zones by a third. Fare revenue covered 31 percent of operating expenses, with the remainder funded by the regional sales tax. Ridership on the metropolitan bus network recovered to 87 percent of pre-pandemic levels during the fiscal year. On-time performance for heavy rail averaged 91 percent, up two points year over year.
